

“Hello, Hello”

When you are the new kid, sometimes it seems tough
To greet new faces, in strange places, shake hands and all that stuff.
I am here to tell you, if I want to join and play,
I put on a grin, and jump right in, here is what I say

Hello, hello, it's really nice to meet ya.
Hello, Hello, I just wanted to greet ya.
Hello, hello, I'm making new friends now.

When you're not the new kid, don't forget it's tough
To meet new faces, in strange places, shake hands and all that stuff.
Remember how you felt, when you wanted to join and play
So put on a grin, your friend will fit right in, don't forget to say

Hello, hello, it's really nice to meet ya.
Hello, Hello, I just wanted to greet ya.
Hello, hello, I'm making new friends now.

I see the kids at play, I want to go that way
What am I going to say, if they ask me to stay?
It's gotta be today, can't wait another day
I'm going to ask them, if I can join and play

I'm feeling kinda shy, I guess I don't know why
I think I should say Hi, before they pass me by
I'm going to say hello, if I don't I'll never know
So ready set, here I go!

Hello, hello, it's really nice to meet ya.
Hello, Hello, I just wanted to greet ya.
Hello, hello, I'm making new friends now.

By now I'm sure you know, it's really not so tough
To greet new faces, in strange places, shake hands and all that stuff.
Be kind and include the others, who want to join and play,
Put on a grin, and jump right in, don't forget to say

Hello, hello, it's really nice to meet ya.
Hello, Hello, I just wanted to greet ya.
Hello, hello, I'm making new friends now.

“Safety Dave”

Never run with scissors, lsh! Don't eat dirt
Don't touch hot coffee, you might get hurt
Look both ways before you cross the street
Wash your hands before you eat1
Just a few things that you can do
Keeping playtime safe for you

With a radar for danger
He's also got an eagle eye
Never letting danger
Pass on by
Keeping it safe, it's Safety Dave
Watching over you
Keeping it safe, he's our guy
Safety Dave

Remember to buckle-up, don't play with fire
Wear your helmet riding bikes, stay away from wires

After you eat wait an hour till you swim
It how you play the game, not if you lose or win
Just a few things that you can do
Keeping playtime safe for you

With a radar for danger
He's also got an eagle eye
Never letting danger
Pass on by
Keeping it safe, it's Safety Dave
Watching over you
Keeping it safe, he's our guy
Safety Dave

Keeping it safe, it's Safety Dave
Watching over you
Keeping it safe, he's our guy
Safety Dave

“Raised in a Barn”

My friends wonder where I learned
All my fancy manners from
I remember to say please and thank you
And you are welcome
I take a bath everyday
In a puddle of mud
When I eat I take my time
And chew up all my spuds

I was born and raised in a barn
With my brothers and sisters too
Mom and Dad said to use our manners
Like nice piggies do

My friends wonder where I learned
All my fancy manners from
I remember to say please and thank you
And you are welcome
I wave my tail at all my friends
Living on the farm
The other animals think I'm sweet
That my manners give me charm

I was born and raised in a barn
With my brothers and sisters too
Mom and Dad said to use our manners
Like nice piggies do

I was born and raised in a barn
With my brothers and sisters too
Mom and Dad said to use our manners
Like nice piggies do

I was born and raised in a barn
That's where I get my piggy charm

“Princess Thundercloud”

Here she comes skipping down the street
The kind of girl that you'd like to meet
It is our Princess Thundercloud
Nice to every kid in the crowd
Sometimes she isn't always sweet
When she's tired and needs to sleep
Something happens to her mood
She needs to shape up her attitude

Chorus:

*Princess Thundercloud full of drama
They say she gets it from her mamma
Just like that it goes away
And she's the sunshine that fills your day*

Here she comes with a smile and a song
She can talk the whole day long
It is our Princess Thundercloud
Tapping her feet she is oh, so loud
Sometimes she isn't always sweet
When she's hungry and needs to eat
Something happens to her mood
She needs to shape up her attitude

Chorus - Repeat

Here she comes, there she goes
She smiles and she crinkles her nose
It is our Princess Thundercloud
She still makes her family proud
Sometimes she isn't always good
Some say she's misunderstood
Something happens to her mood
She needs to shape up her attitude

Chorus - Repeat

Princess Thundercloud full of drama
Ooooh, drama

“School-Time Strut”

All the kids walking down the sidewalk, on their way to school
With their books in their backpacks, looking really cool
You can see them every morning, waiting for the bus
Getting ready to do, the school-time strut

School-time strut is really sweet, looking both ways to cross the street
School-time strut looking up and down, see the sky, see the ground
School-time strut, swing your head, around and around
Everybody’s having fun doing the school-time strut

Waving at the kids on the school bus, as they drive away
I can’t wait till I get big, I’ll ride the bus someday
With my own books in my backpack, waiting for the bus
Getting ready to do the school-time strut

School-time strut is really sweet, looking both ways to cross the street
School-time strut looking up and down, see the sky, see the ground
School-time strut, swing your head, around and around
Everybody’s having fun doing the school-time strut

All the kids walking down the sidewalk, on their way to school
With their books in their backpacks, looking really cool
You can see them every morning, waiting for the bus
Getting ready to do, the school-time strut

“Belly Button”

I have a hole in my tummy
But I don't know what it's for
It's not really big enough
to put something in it to store
Mom says it's my belly button, what a silly name
Just like a fingerprint, no two are the same

Belly buttons come in all sizes
There's innies and outies too
Belly buttons must be useful
But I don't know what they do

My belly button is so cute
But I don't know what it's for
In the bath it fills with water
When I stand it spills on the floor
Some people decorate them with a belly ring
But they're cute the way they are, they don't need a thing

Belly buttons come in all sizes
There's innies and outies too
Belly buttons must be useful
But I don't know what they do

My belly button is still there
But I don't know what it's for
Everyone has one from Kalamazoo
All the way to Singapore
My dad says it's called my navel and he knows what it does
That's easy the answer is, it collects balls of fuzz

Belly buttons come in all sizes
There's innies and outies too
Belly buttons are very useful
They collect lint for you!

Belly buttons
Collecting lint for you

“Things I Love”

Bubblegum and big snowflakes
A nice walk around the lake
2 red cardinals 3 blue jays
Popcorn and stay at home days
Fresh warm sheets on my bed
Everything that’s the color red
So many things in life are good
My grandma told me that I should

*Take time to smell the roses
Sit and watch the sunrise too
Make time for friends and family
Remember to say I love you*

Puppy dogs and holidays
Fireworks on my birthday
Goopy chocolate, cherry everything
Like no one’s watching, dance and sing
My dad’s stories, my mom’s love
A star named Tessa in the skies above
So many things in life are good
My grandma told me that I should

Chorus Repeat

Blowing kisses, holding hands
Walking barefoot in warm sand
Tiana’s smile, Scotty’s hug
All the things I truly love
Grandma’s cookies with ice cream
Waking up laughing from a dream
So many things in life are good
My grandma told me that I should

“Lady Liberty”

In 1776
Independence from the Brits
It was the 4th of July
Fireworks going up in the sky
There was a revolution
America signed the constitution
A place for democracy
Freedom for you and me

The Statue of Liberty
She proudly stands today
A gift of friendship to the USA
Lady Liberty

In 1876
America’s centennial bliss
A hundred year anniversary
Thankful to be free
In 1886
America received an awesome gift
Sent from the people of France
To the people of the US

Chorus Repeat

Fredrick Auguste Bartoldi
Was the sculptor of this beauty
At 151 feet
Copper sheets made her complete
She sailed across the sea
To the land of opportunity
On Ellis Island she stands
Tall with her torch in her hand

Chorus Repeat

Our Lady Liberty
Proudly stands today
Welcoming you to the USA
Lady Liberty
Every 4th of July
Fireworks going up in the sky
Thanks to the people of France
Our Lady Liberty stands
Lady Liberty

“Wonders”

The world is full of wonders
Both ancient and new
The Leaning Tower of Pisa
The statue of Zeus
If there are 7 wonders
I know number 8
I have my shoe in my hand
But I can't find its mate

*The 8th wonder of the world
Is the missing shoe
I guess to keep them both on
I will have to use some glue
I'm glad my head's attached
Or I would lose that too
Has anybody seen
Just where I put my other shoe?*

The Golden Gate Bridge
And the Taj Mahal
The Great Wall of China
And the Panama Canal
I've looked almost everywhere
But I can't find my shoe
In my closet by the door
And on the floor too

Chorus Repeat

The Pyramids of Egypt
And the CN Tower
The lighthouse of Alexandria
The Eiffel Tower
I've looked everywhere
But my shoe is gone
In my bed on the stairs
On the front lawn

Chorus Repeat

Oh, I guess it's not a wonder
I found my other shoe
On my foot!

"Limbo"

Everybody get together
Gather 'round
Hear the music
That reggae sound
Let's get limber
Let's get quick
Everyone go under
The limbo stick

People get together
Stand in line
Do the limbo
One more time
Don't forget
To take it slow
Limbo is about
How low you go
