

“With A Friend”

I went walking in the park
Not too far from home
When I remembered Mama said,
“Don’t go all alone”

It’s always better with a friend
You can talk and share
Together hand and hand
When your friend is there

On the sidewalk you see a cat
Stretching out his back
You try stepping carefully
Not to hit a crack

You bend down to touch your toes
Then reach for the sky
With your friends
It’s fun to play
As everybody knows

I went walking in the park
Not too far from home
When I remembered Mama said,
“Don’t go all alone”

It’s always better with a friend
You can talk and share
Together hand and hand
When your friend is there

It’s always better with a friend
You can talk and share
Together hand and hand
When your friend is there

“Dingo Dance”

Look for the Dingo, you'll see the dance
Look for the Dingo, up in his stance
Look for the Dingo; he's a special breed
Follow the Dingo; he's always in the lead

Chase your tail, and wag it like you do
Cover your eyes, we'll play some peek-a-boo
Scratch your ears and let out a howl
Waohhhhhhhh.....

Do the Dingo Dance, from down under
Do the Dingo Dance, loud as thunder
Do the Dingo Dance, it's a wonder
Do the Dingo Dance
With the Dingo

Look for the Dingo, and his family
Look for the Dingo, he likes the Wallaby
Look for the Dingo, waving his paw
Play with the Dingo, it's a big hurrah

Chase your tail, and wag it like you do
Cover your eyes, we'll play some peek-a-boo
Scratch your ears and let out a howl
Waohhhhhhhh.....

Do the Dingo Dance, from down under
Do the Dingo Dance, loud as thunder
Do the Dingo Dance, it's a wonder
Do the Dingo Dance
With the Dingo

Look for the Dingo, you'll see the dance

Look for the Dingo; he's a special breed

“Ocean Princess”

A Mermaid is an ocean princess
Half human and half fish
Legend says that if you ask
She may grant you a wish

This beauty has long golden hair that
Shines in the morning sun
Wanting to share her ocean world
She welcomes everyone

Take my hand and I'll show you the way
If you like, you're welcome to stay
Underneath an ocean blue
An adventure is waiting for you

The ocean princess can be seen
Swimming under skies so blue
Looking for the other world
To see what the humans do

By the moonlight she likes to swim
to the ocean shore
Singing to the humans
Then back to the ocean floor

Take my hand and I'll show you the way
If you like, you're welcome to stay
Underneath an ocean blue
An adventure is waiting for you
An adventure is waiting for you
An adventure is waiting
For you

“Little Stinker”

Even when I’m grown-up
I’ll act just like I’m two
Those who love me call me stinker Roo

I’m cute as a button
But don’t let me out of sight
My thick black fur & lovely white stripe

I’m your little stinker
Always on the go
I’m your little stinker
But I know ~ you love me so

I get into mischief
I keep you on your toes
If I lift my tail you better plug your nose

I want your affection
I want to hug your neck
I love to make the house an utter wreck

I’m your little stinker
Always on the go
I’m your little stinker
But I know ~ you love me so

I’m strong for my size
I can move most furniture
Those locks can’t even make the door secure

I’ll find your socks and towels
Take your blanket in a flash
I’ll dump out bags and purses even trash

I’m your little stinker
Always on the go
I’m your little stinker
But I know ~ you love me so

“Sacagawea”

Sacagawea
Showed Lewis and Clark the West
With her infant and no time to rest
Even sick she was still the best

Calm in the face of danger
An ocean wave took supplies
She waved them to their surprise
Then her courage was realized

Wind River woman
A tale of bravery
An American legend
Of discovery

Sacagawea
Met her people along the way
They offered horses to save the day
But with her tribe she didn't stay

The pilot of the journey
She led them all to the end
With respect from her new found friends
On each other they could depend

Wind River woman
A tale of bravery
An American legend
Of discovery

Wind River woman
A tale of bravery
Wind River woman
Of our history
Sacagawea, Sacagawea

“Green Cheese”

Count 10, 9, 8...

Hang on we're gonna go really fast
As we head into outer space
Looking out the window
It's the sea of tranquility
The stars twinkling around us
But where is the green cheese

My space missions are so fun
I never know what I'm gonna see
Aliens, the moon and the stars
But where is the green cheese

Hang on we're gonna slow this ship down
We're gonna land here on the moon
Climbing up the ladder
It's my alien friend Chereez
Even though she has 3 purple eyes
She still hasn't seen the green cheese

My space missions are so fun
I never know what I'm gonna see
Aliens, the moon and the stars
But where is the green cheese

Hang on we're gonna go really fast
As we head back to mother earth
Almost time for dinner
Now we're home from the galaxy
My question still hasn't been answered
Where is all the green cheese?

My space missions are so fun
I never know what I'm gonna see
Aliens, the moon and the stars
But where is the green cheese

“Treasure Hunt”

Going on a treasure hunt, just my friends and me
We’re going on a treasure hunt at sea

Going to an island, sailing our own ship
Looking at treasure maps, planning out the trip
To get to the island, you have to take a swim, but
The water’s great just dive right in

Playing with the dolphins, splashing having fun
Swimming on our backs we, looked up at the sun
What’s in the water? Is that a shark fin?
Swim faster, don’t look back, swim faster swim

Going on a treasure hunt, just my friends and me
We’re going on a treasure hunt at sea

We made it to the shore, and walked with the crabs
To the water and right back, what fun we had
We saw birds and silly monkeys
Marching all around giant palm trees
Sliding down a waterfall, climbing a big rock
That’s when we saw it; X marks the spot
We had to dig, dig, dig, dig down deeper
We found the chest, it’s “finders keepers”

Going on a treasure hunt, just my friends and me
We’re going on a treasure hunt at sea

Opening the treasure chest, it gave out a squeak
Sparkling and shining, we all took a peek
Gold coins, emeralds, riches of kings
Rubies, pearls and diamond rings
It’s getting late so, what do you say
We bury this to find, some other day
Back to the shore, let’s swim to our ship
What a fun day! What a fun trip!

Going on a treasure hunt, just my friends and me
We’re going on a treasure hunt at sea
A treasure hunt at sea

“Occupation Sensation”

One day my teacher asked me “What ya gonna be?”
I shook my head and answered, “Don’t ask me?”
My teacher told me, “Son you better make up your mind,
Just think about it, I’m sure you will find
There are so many things that you can be
I’ll tell you all about it, just listen to me”

“Find an occupation, that you’re gonna love
Take a fascination that you’re sure of
Use your imagination; it’s all up to you
It’s a great sensation, to like what you do
Keep it in your head; don’t forget what I said
Occupation Sensation”

“Find an occupation, that you’re gonna love

That day my teacher asked me “What ya gonna be?”
I shook my head and answered, “Hey, don’t ask me?”
She told me “Son you better make up your mind”
So I thought about it, and I did find
There are so many things that I can be
I’ll tell you all about it, just listen to me

I found an occupation, that I really love
Took a fascination that I was sure of
Used my imagination, it’s all up to me
It’s a great sensation, to be feeling this free
Kept it in my head, didn’t forget what she said
Occupation Sensation

“Find an occupation, that you’re gonna love
Take a fascination that you’re sure of
Use your imagination; it’s all up to you
It’s a great sensation, to like what you do
Keep it in your head; don’t forget what I said
Occupation Sensation”
“Thank you, thank you very much!”

“Superheroes”

I wanna be a hero
I wanna save the day
I wanna make all of your troubles go away

Is it a bird or is it a plane
Driving around faster than a train
Doing what’s right and helping you
I bet that you could be a hero too

When there’s a fire, give me a shout
I’ll be right there to put it out
I’ll be on call the whole day through
Firefighters are heroes too

Is it a light or is it a flash
I’ll be right there after a crash
Doing what’s right and helping you
I bet that you could be a hero too

When you are sick or hurt, don’t be afraid
I’ll be right there to give you first aid
Off to the hospital I will drive you
Paramedics are heroes too

Is it a train or a Locomotion
Calming down the big commotion
Doing what’s right and helping you
I bet that you could be a hero too

I’m in my car, doing patrol
To keep our city under control
Making our streets safe for you
Police officers are heroes too

Is it a hero or is it a friend
They’re always there, again and again
Doing what’s right and helping you
I bet that you could be a hero too

I wanna be a hero
I wanna save the day
I wanna make all of your troubles go away

“Daisy’s Diner”

If you’re lookin’
For good home cookin’
Then Daisy’s is the place to go

Try her chicken dumplings
And her apple pie a la mode
She’ll serve you with a smile
And that good old fashioned style

Dig in at Daisy’s Diner
Where the food is always great
Dig in at Daisy’s Diner
You’ll always clean your plate

If you’re lookin’
For good home cookin’
Then Daisy’s is the place to be
For mashed potatoes and gravy
And sweet potato pie
She’ll serve you with a smile
And that good old fashioned style

Dig in at Daisy’s Diner
Where the food is always great
Dig in at Daisy’s Diner
You’ll always clean your plate

“In The Sky”

Cruising in the sky in my jumbo jet
Everyday from sunrise until sunset
Looking at the clouds as they tumble by
All the silly things that catch my eye

Flying in the clouds
Dreaming in the sky
Imagining that I see.....

A bug bouncing on a big baboon
A rat floating away on a balloon
A turtle playing tennis with a poodle
A monkey swinging from a curly noodle

Flying in the clouds
Dreaming in the sky
Imagining that I see.....

An elephant sitting in a little bird house
A giraffe reading a story to a mouse
A turkey jumping like a Kangaroo
A whale leading the band with a kazoo

Flying in the clouds
Dreaming in the sky
Imagining that I see.....

Looking at the clouds as they tumble by
All the silly things that catch my eye
In the Sky
